

Gerioperative Nursing Care

Presented by authors

Raelene Shippee-Rice PhD, RN and Susan Fetzer, PhD, RN

Friday, November 22nd, 2013

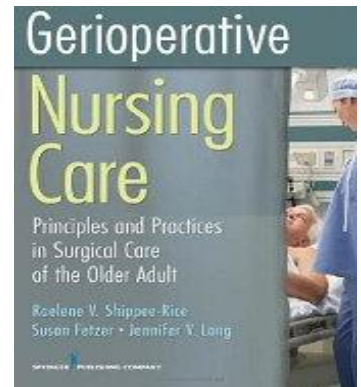

3:00 pm – 6:00 pm

Live at Littleton Regional Healthcare

H. Taylor Caswell Jr. Conference Rooms 1, 2 & 3

and via Internet Video Conference at

Androscoggin Valley Hospital, Upper Connecticut Valley Hospital, and
Spears Memorial Hospital

LEARNING OBJECTIVES

At the conclusion of this program, participants will be able to:

1. Identify three physiological cardiovascular changes in elders that impact postoperative care.
2. Compare the impact of general versus regional anesthesia on elder postoperative recovery
3. Describe three postoperative complications of elders and their nursing interventions.
4. Identify risk factors for postoperative delirium in older adults.
5. Distinguish clinical features of postoperative delirium.
6. Describe nursing care management of older adults at risk for experiencing post operative delirium.
7. Evaluate the effects of pain and pain management on the development of delirium in older adults.

Meet the authors, book-signing and reception to follow presentation.

This course has been approved for 2.75 contact hours of continuing education credit.

The North Country Health Consortium is approved as a provider of Continuing Medical Education (CME) by the New Hampshire Medical Society, an ACCME accreditation organization.
