

# JOIN US FOR A FREE HEARING SCREENING & EDUCATIONAL WORKSHOP

at Littleton Regional Healthcare

**FRIDAY, MAY 19, 2017**  
**11:00am–Noon**

## HEARING LOSS IN AMERICA:

Hearing loss is the third most prevalent chronic condition in older Americans, after hypertension and arthritis.

Erin Taylor, AuD, CCC-A, and her team will provide you with the compassion

and personalized care you deserve. The office performs hearing exams, as well as hearing aid fitting and repair services.

### ➤ EFFECTS OF HEARING LOSS

Are there weddings, family reunions, graduations, or other special occasions you have planned this summer? Don't let hearing loss interfere with making new memories. Take the time to make sure you don't miss a word during these important moments.

Join us on May 19, 2017 at 11am for an educational workshop to learn about hearing loss, the latest hearing aid technology and the next steps that may be right for you. Free lunch provided. Free hearing screenings will be scheduled **by appointment, prior to the workshop**, to help you with your next step!
