

SAFE IN OUR CARE

LITTLETON
REGIONAL HEALTHCARE

At Littleton Regional Healthcare, we are taking extra precautions to keep you safe. We are committed to providing the same level of high-quality care that we have since we began in 1907.

Safe Scheduling

When you call to schedule an appointment, we'll ask you questions about your health and any symptoms you may be experiencing. We'll remind you to wear a face covering or mask to your appointment. If you don't have a face covering or mask, one will be provided for you. All patients, visitors and team members are required to wear a face covering or mask at all times while in our facility.

Safe Care Screenings

When you arrive at Littleton Regional Healthcare, you'll be greeted by a mandatory screening check-point attendant who will take your temperature, screen you for COVID-19 symptoms, provide the opportunity to use hand sanitizer, and if you don't already have a face covering, provide you with a face mask. The screener will also answer any questions you may have about our safety protocols.

Safe Hands

Good hand hygiene is essential for all team members, patients and visitors. When you come to Littleton Regional Healthcare, you will be provided the opportunity to use hand sanitizer at the door as you enter the building, before you enter the exam or procedure area, and as you exit the exam or procedure area. Hand sanitizer will also be available for additional use as needed.

Safe Check-in and Check-out

When information in writing is required, ink pens, clipboards and other materials will be thoroughly disinfected after each individual use. We have also designated physical distancing zones at our check-in and check-out windows to allow for adequate space between patients.

Safe Lobbies

Our lobbies and common areas, including high-touch items such as door handles, elevator buttons, tables and chairs, are cleaned and disinfected frequently throughout the day for your safety. Seating capacity has been limited to align with physical distancing guidelines. You may also choose to wait in your vehicle after checking in if you prefer.

Safe Exam Rooms

Littleton Regional Healthcare has always followed stringent cleaning protocols. For added safety, we have further enhanced those protocols for our patients' health and safety. Our exam rooms and procedure areas are thoroughly cleaned and disinfected between each patient visit.

Safe E-visits

Our physician offices now offer e-visits for our patients. If you'd prefer to see your care provider from the comfort of your home, please call your provider's office for more information.

At Littleton Regional Healthcare, you're safe in our care. Have a question or concern?
